ATT 121 Automotive Estimating Effective Term: Fall 2025

Course Cover

College: Advanced Technologies and Public Service Careers

Division: Advanced Technologies and Public Service Careers

Department: Transportation Technologies

Discipline: Automotive & Transportation Tech (new)

Course Number: 121

Org Number: 14100

Full Course Title: Automotive Estimating

Transcript Title: Automotive Estimating

Is Consultation with other department(s) required: No

Publish in the Following: College Catalog , Time Schedule , Web Page

Reason for Submission: Course Change

Change Information:

Consultation with all departments affected by this course is required.

Course discipline code & number

Rationale: Update the course for the new discipline.

Proposed Start Semester: Fall 2024

Course Description: In this course, students will develop skills in repair estimation associated with collision damaged vehicles. Skills acquired will include handwritten estimation along with the use of software specifically developed for the auto body repair industry. Damage assessment, parts compilation, calculation of repair costs, and refinishing information are some of the topics that will be covered. This course was previously ABR 121.

Course Credit Hours

Variable hours: No

Credits: 2

Lecture Hours: Instructor: 30 **Student:** 30

The following Lab fields are not divisible by 15: Student Min, Instructor Min

Lab: Instructor: 22.5 **Student:** 22.5

Clinical: Instructor: 0 **Student:** 0

Total Contact Hours: Instructor: 52.5 **Student:** 52.5

Repeatable for Credit: NO

Grading Methods: Letter Grades

Audit

Are lectures, labs, or clinicals offered as separate sections?: NO (same sections)

Proposed For:

Student Learning Outcomes

1. Determine repairs and/or replacement parts needed based on descriptions of vehicle damage.

Assessment 1

Assessment Tool: Outcome-related multiple-choice exam questions

Assessment Date: Fall 2024

Assessment Cycle: Every Three Years

Course section(s)/other population: All

Number students to be assessed: All

How the assessment will be scored: Answer key

Standard of success to be used for this assessment: 75% of the students will score 75% or higher.

Who will score and analyze the data: Departmental faculty

2. Produce an accurate and comprehensive damage/appraisal report.

Assessment 1

Assessment Tool: Damage/appraisal report

Assessment Date: Fall 2024

Assessment Cycle: Every Three Years

Course section(s)/other population: All

Number students to be assessed: All

How the assessment will be scored: Departmentally-developed rubric

Standard of success to be used for this assessment: 75% of the students will score 75% or higher.

Who will score and analyze the data: Departmental faculty

Course Objectives

1. Demonstrate the ability to apply the fundamental principles of repair estimation.
2. Inspect and record determined repairs or replacement.
3. Locate and identify parts, labor and refinishing information
4. Research part availability and repair procedures.
5. Compare original report costs and damage/appraisal reports, and evaluate for costs savings.
6. Demonstrate ability to calculate damage repair report costs.

Outcomes/Assessment

Rationale: Add ABR 112 as a prerequisite

Proposed Start Semester: Winter 2014

Course Description: In this course, students develop skills in repair estimation associated with collision damaged vehicles. Skills acquired will include hand written estimation along with the use of software specifically developed for the auto body repair industry. Damage assessment, parts compilation, calculation of repair cost, and refinishing information are some of the subjects to be covered. Additionally, students will examine the nature of the body shop management team and the factors that contribute to the success and profitability of an effective, efficient operation. The title of this course was previously Applied Body Welding and Estimation.

How the assessment will be scored: Answer Key

Standard of success to be used for this assessment: 80% of the students will score 80% or higher.

Who will score and analyze the data: Departmental faculty

Course Objectives

1. Explore planned classroom activities and demonstrate the ability to apply fundamental principles of estimating.

Matched Outcomes

1. Analyze vehicle damage and determine needed repairs or replacement.

2. Inspect and record determined repairs or replacement.

Matched Outcomes

1. Analyze vehicle damage and determine needed repairs or replacement.

3. Locate and identify parts, labor and refinishing information
Matched Outcomes
 1. Analyze vehicle damage and determine needed repairs or replacement.
4. Research availability of other parts and repair procedures.
Matched Outcomes
 2. Demonstrate principles of damage report writing to produce an accurate and comprehensive damage/appraisal report.
5. Evaluate cost savings of damage/appraisal report against original report cost.
Matched Outcomes
 2. Demonstrate principles of damage report writing to produce an accurate and comprehensive damage/appraisal report.
6. Demonstrate ability to calculate damage repair report cost.
Matched Outcomes
 2. Demonstrate principles of damage report writing to produce an accurate and comprehensive damage/appraisal report.
7. Write accurate and comprehensive damage/appraisal report.
Matched Outcomes
 2. Demonstrate principles of damage report writing to produce an accurate and comprehensive damage/appraisal report.
8. Explore the make-up of a good and effective management team.
Matched Outcomes
9. Identify contributing factors to business profitability
Matched Outcomes
